Outreach

Route 1

Keynote lectures, panel panel discussions

Expected audience:
+1000

People from different sectors: public, private, development banking, finance, NGOs, civil society, consultants, developers, among others.

Routes 2 and 3

Specialized workshops, booth areas and networking

Rooms with capacity:
30 y 120

PERU CARBON FORUM will bring together international actors, regional and local organizations specialized in climate finance and carbon markets.

You will be able to listen to and interact with key decision makers:

- Public sector: secretaries, undersecretaries and delegates of environment, treasury and finance.
- Private sector: industry, commerce, transportation, energy, finance.
- Developers of emission reduction projects.
- Managers of international carbon standards.
- Certification programs; verifiers and validators.
- Specialized consultants

Peru is actively working to meet its international climate commitments through its NDC and is exploring various options, including carbon markets, to finance and support the implementation of climate change mitigation and adaptation measures in the country.

Main Topics 2025

- The National Registry of GHG Mitigation Measures, RENAMI: Key points of the new regulation and opportunities.
- The carbon market in Peru: Progress and challenges.
- Risk Management in the Carbon Market: Identification and mitigation of regulatory, reputational and financial risks in the Peruvian and regional market.
- Article 6 of the Paris Agreement: Progress and challenges in its implementation in Peruvian and Latin American regulation.
- Renewable energy and credits in Peru.
- Transactions in the voluntary market: monitoring, reporting and verification systems.
- Biodiversity credits and their potential in Peru.
- Reflections on COP 29 and progress towards COP30 in Brazil.
- Road to Decarbonisation and NetZero.
- Green cement: Reduction strategies and circularity.
- Financing the global carbon market to tackle climate change. Current status and importance.
- The Role of Communities in Carbon Projects.
- Forest carbon markets: Incorporating new methodologies.
- The integration of carbon markets into forest business plans.

Sponsorship Scheme

General considerations

- The reflected prices DO NOT include Taxes.
- All sponsors must sign the Memorandum of Understanding (MoU) between the parties, no later than 2 weeks after confirming the type of sponsorship.
- The representatives proposed by the sponsors, as well as the topics for the keynote lectures and workshops to be given must be agreed with the organizers, taking into account their relevance and suitability.
- The topics for the panel discussions will be developed in conjunction with the local counterpart of the event, and will be sent to the representatives of the sponsors for the selection of the topic.
- Suggestions should be made with reasonable advance notice. It is expected to have a final version of the agenda two weeks before the event.
- Booth area and locations will be agreed with the organizers depending on availability and confirmation of sponsorship.

Early Bird Considerations

- The Early Bird scheme contemplates payment of the package before March 31, 2025. From April 1, 2025, the Early Bird scheme will not be valid.
